

Partners

In today's ever-changing global business environment we know it is important to have partners that understand the dynamics of change and importance of what it takes to succeed.

Be-Intouch

Be-Intouch is enhanced web conferencing for better meetings with remote user needs. Fully interactive voice and multimedia enabled in a 2D or 3D environment via Many2Many voice over IP. Be-Intouch offers variable meeting sizes and formats with less investment needed.

Iwatsu Voice Networks

Iwatsu Voice Networks has been at the forefront of the telecommunications industry as a leading developer and manufacturer of business communications technology for over half a century. Iwatsu's products have one of the best MTBF (mean time between failure) rates in the industry.

Esna Technologies Inc.

Esna Technologies Inc. is a global leader in unified communication platforms and provides its solutions to over 28 countries around the world. Esna Technologies Inc. is an official partner with Iwatsu providing state of the art, fully integrated voice messaging, fax server and unified messaging solutions.

MCI-UUNET

MCI today is the "New MCI" company providing sensible solutions to local and long distance carrier service. MCI has the largest backbone in the world to carry your voice and data images at high speed and superior quality.
